Duties: You will serve as either an Operations Support Command (OSC) Systems Manager or as a Tobyhanna Army Depot Program (TYAD) Manager for high visibility/high priority mission projects chartered by the TYAD Commander. The incumbent ensures the successful completion of repair and overhaul efforts of complex electronics-communications equipment/systems as well as new systems development and fabrication projects. Manage the programs/projects that require planning, directing, evaluating, and coordinating logistical actions to support the life cycle management of complex electronics-communications equipment during manufacture and initial fielding. Represent TYAD at conferences, meetings, and in personal contact with responsible officials of command level, other agencies, and contractors. Manage, direct, coordinate and monitor the development of integrated logistics requirements for communications-electronics systems and/or other projects assigned to TYAD.

About the Position: The Forward Repair Activity (FRA) Fort Lewis is a facility that performs on-post repair of Standard Army Management Information System (STAMIS) computer and related peripherals. This FRA is part of Tobyhanna Army Depot (TYAD). The TYAD mission includes design, manufacture, repair and overhaul of hundreds of electronic systems for all branches of the Armed Forces. For over 50 years, Tobyhanna personnel have built a tradition of unparalleled customer satisfaction through the delivery of timely, cost-effective, and high-quality products and services. The FRA is located in the Pacific Northwest on Puget Sound, Washington state, and is adjacent to Mc Chord Air Force Base.

General Schedule

QUALIFICATION REQUIREMENTS: Please click on the General Schedule button and review the requirements for this GS-0346, Logistics Management Specialist position. SPECIALIZED EXPERIENCE: Qualified candidates for this job must show in their résumé that they possess one year of specialized experience that provided knowledge and skill in the application of the Integrated Logistics Systems (ILS) and included responsibility for determining the financial resources, manpower, facilities, equipment, supplies, materials and services, as well as managing a program/project that required planning, directing, evaluating, and coordinating logistical actions to support the life cycle management of complex communications-electronics systems/equipment. Also, you must possess the following knowledge and ability: A comprehensive knowledge of communications-electronics and computer equipment, technical and functional characteristics, and maintenance requirements; A broad knowledge of a wide variety of logistics support activities to secure and maintain facilities to support the life cycle management of complex communications-electronics equipment; Knowledge of Integrated Logistics Support Management principles, concepts, and methodology to oversee a variety of difficult and complex ILS projects. Your level of specialized experience must be equivalent to the GS-11 level in the Federal Service.

GS-12 and above: One year of experience directly related to the occupation and equivalent to at least the next lower grade level. There is no substitution of education for experience at this level.

The experience described in your resume will be evaluated and screened for the Office of Personnel Management's basic qualifications requirements, and the skills needed to perform the duties of this position as described in this vacancy announcement.

Applicants who have held a General Schedule (GS) position within the last 52 weeks must meet the Time in Grade Restriction.

Must have 52 weeks of Federal service at the next lower grade (or equivalent).
